Summary

Experienced Full Stack Developer with expertise in **Java, Spring Boot, React JS, SQL, Android** and **AWS**. Skilled in building scalable applications, secure backends, and user-friendly interfaces. Proficient in **Agile methodologies** with strong problem-solving and leadership abilities.

Skills

- **Core Java, Java 8, J2EE, Collections:** For developing robust and scalable backend solutions.
- **Android Development:** Auth, Payment Integration, Material Design, Animations.
- **OOPS (Object-Oriented Programming):** For designing reusable, modular, and efficient code structures.
- **Multithreading:** For optimizing application performance through concurrent programming.
- **Exception Handling:** For ensuring robust error management and application stability.
- **Java 8 Features:** Proficient in **Streams API, Lambda Expressions, and Functional Interfaces** for writing cleaner, modern Java code.
- **Spring, Spring Boot, Spring MVC, Spring Security:** For building enterprise-level applications and securing them with modern frameworks.
- **Microservices, REST API:** For deploying modular, scalable, and efficient web services.
- **JSP, Servlet, Hibernate, ORM, Spring JDBC:** For implementing dynamic web pages, database operations, and object-relational mapping.
- **Maven:** For managing project dependencies and automating builds.
- **HTML, CSS, Bootstrap:** For creating responsive and visually appealing designs.
- **React JS, JavaScript, TypeScript:** For building interactive, dynamic, and type-safe user interfaces.
- **SQL, MySQL, RDBMS, Firebase:** For optimizing relational databases.
- **NoSQL Databases (MongoDB):** For handling unstructured and scalable data storage.
- **PostgreSQL:** For modern applications requiring reliable, efficient data management, advanced data types, and strong ACID compliance.
- **AWS (EC2, S3, Load Balancers, Lambda):** For deploying, and scaling cloud-based applications.
- **Docker, Kubernetes:** For containerization and orchestration of applications.
- **CI/CD Pipelines:** Experience with **Jenkins, GitLab CI/CD, and GitHub Actions** for automated builds and deployments.
- **Postman:** For testing and debugging REST APIs.
- **Git, GitLab:** For version control and collaborative development.
- **Eclipse, IntelliJ, Android Studio, Visual Studio:** For writing, debugging, and maintaining code, scripting and automation.
- **Apache Tomcat 9.0:** For deploying Java-based web applications.
- **Agile Development Methodologies:** Adopting iterative and collaborative approaches for efficient project execution.
- **Problem-Solving & Leadership:** Skilled in resolving technical challenges and leading teams to successful project outcomes.
- **Team & Time Management:** Coordinating with teams and delivering projects within deadlines.

Training & Internship

Besant Technologies Trainings

July 2024 – Dec 2024

Full Stack Developer

Bengaluru, India

- Developed responsive and dynamic web applications using **React.js, Redux** and modern **JavaScript (ES6+)** to ensure seamless **UI** performance.
- Gained hands-on experience at Besant Technologies Trainings, learning backend development with **Java Spring Boot** and implementing **RESTful APIs** for seamless data integration.
- Utilized **SQL** for efficient database management and integrated backend services with **Java Spring Boot** for robust and scalable application performance. [Link](#)

Swami Keshwanand College of Higher Edu.

Jan. 2023 – June 2024

Software Development Intern

Alwar, Raj. India

- Understood the various stages of software development life cycle, from planning to testing and deployment.
- Enhanced proficiency in core programming languages like Java applying them to real-world projects
- Designed, built, and maintained websites hosted on Hostinger. [Link](#)

Certification

- Full Stack Development- [Besant Technologies](#)
- Android Development - [Udemy](#)
- Java & DSA - [Apna College](#)
- DevOps- [Besant Technologies](#)

Projects

- **12th Agriculture Notes (LIVE) | Java & XML – Android Studio | Dec 2024 – Present**
 - Live on Google Play Store with **8000+ downloads**, **3000+ monthly active users**, and **4.9+ star rating**.
 - The app is intended to provide students studying agriculture with easy access to key learning resources.
 - Created curriculum and resources for Advanced Chemistry and Biology, boosting student engagement by 15% and academic performance by 20%.
- **Image Finder | React JS (Vite) | Sept. 2024**
 - Build a React.js (Vite) Image Finder app using the Pixabay API with real-time search and responsive UI.
 - Used React hooks and conditional rendering for dynamic image loading and user interaction.
 - Optimized app performance with Vite and implemented a clean, mobile-friendly layout.
- **Keshwanand Sschool | HTML5, CSS3, JavaScript, Spring Boot | Nov. 2024**
 - Built a responsive school website with **Spring Boot** for backend services and **HTML, CSS, Bootstrap, and JavaScript** for the front-end.
 - Implemented key features like Home, About Us, Academics, Admissions, and Contact pages with a dynamic **Login, Signup** and **admission form**.

Education

Sunrise University, Alwar

2023 –2025

Masters of Computer Application (MCA)

74.67 %*

Lords University, Alwar

2020 –2023

Batchler of Computer Application (BCA)

66.8 %

EXTRACURRICULAR

- I was ABVP Volunteer from Aug. 2019 to July 2024 and one year District Co-Ordinator, Alwar.
- I have completed Full Stack Java Development in Besant Technologies.
